

Exercise 1E

Open exercises/exercise1e.r

Run setup code

- Add the minimal theme (`theme_minimal()`) to the plot.
- Increase the font size of the title (`plot.title`).
- Hint: see the help page for `element_text`

Bonus: What else can you change?

Exercise 1E

Open `exercises/exercise1e.r`

Run setup code

- Add the minimal theme (`theme_minimal()`) to the plot.
- Increase the font size of the title (`plot.title`).
- Hint: see the help page for `element_text`

Bonus: What else can you change?

```
ggplot(unisex_data, aes(x=Male, y=Female, color=name)) +
  geom_point() +
  geom_smooth(method="lm", se=FALSE) +
  labs(title="Unisex Name Popularity",
       x="# of Male Babies per Year",
       y="# of Female Babies per Year",
       color="Name") +
  theme_minimal() +
  theme(plot.title=element_text(size=24))
```
