

# Themes: Order Matters

```
ggplot(mpg, aes(displ, hwy)) +  
  geom_point() +  
  theme(panel.grid.minor.y=element_line(color="red")) +  
  theme_bw()
```

# Exercise 1E

Open `exercises/exercise1e.r`

Run setup code

- Add the minimal theme (`theme_minimal()`) to the plot.
- Increase the font size of the title (`plot.title`).
- Hint: see the help page for `element_text`

**Bonus:** What else can you change?
